New Colletion FORZA

New Product Launch 2026

The strength that defines the surface.

Modern furniture board featuring an exceptionally durable, super-matt surface designed for intensive everyday use.

Thanks to innovative EBC (Electron Beam Curing) technology, FORZA combines outstanding resistance with an elegant appearance, a pleasant tactile finish and easy everyday care. It eliminates the need to choose between design and durability.

Stylish Palette
8 timeless decors - from subtle, pasel light colors to powerfull luxury tones.

Super Matt & Velvety Texture
Its deep, sophisticated matt finish and velvety texture create an exceptionally elegant effect while reducing the visibility of fingerprints.

Advanced EBC Protection
Provides very high scratch resistance, high chemical resistance, and robust resistance to UV radiation for long-lasting interiors.

COLOR COLLECTION & FINISHES

The strength that defines the surface.

Modern furniture board featuring an exceptionally durable, super-matt surface designed for intensive everyday use. Thanks to innovative EBC (Electron Beam Curing) technology, FORZA combines outstanding resistance with an elegant appearance, a pleasant tactile finish and easy everyday care. It eliminates the need to choose between design and durability.

EBC Technology - During a precisely controlled process, the multi-layer surface structure is hardened using an electron beam, creating an exceptionally durable protective layer.

Ecological & Efficient: The EBC manufacturing process requires neither solvents nor formaldehyde, and features low energy consumption, combining high performance with a responsible manufacturing approach.

Base Board Thickness:	**18 mm**
Dimensions:	**2800 x 1300mm**
Base:	**MDF**

FORZA – engineered for life. Designed to last

Key Performance Factors

- High surface hardness & scratch resistance
- Chemical and UV radiation resistance
