Vision Texture LINES

New Product Launch 2026

Discover a new dimension of design with the **Vision Lines** collection by Niemann Polska. The premiere of this new addition to the Vision Texture collection redefines elegance in modern furniture design.

Its linear, three-dimensional surface structure plays subtly with light, adding exceptional depth and a bold character to every piece.

PET (Deep Emboss): Deeper and more delicate angles create subtle light diffusion and refined depth, while the surface reveals a sophisticated change of texture depending on the angle of light.
