

## Bright surfaces that transform any space

MIRROR is a decorative furniture panel with a smooth, high-gloss mirrored finish that brings an entirely new dimension of light and depth into an interior. Its reflective surface visually expands the space and adds an elegant, glamorous touch to any setting.

Compared to conventional mirrors, the panel is significantly lighter and far more resistant to breakage, making it easy to install on walls, ceilings, and even curved surfaces. The result is a product that combines refined design with lasting durability — bringing a distinctive sense of quality to every project.

## The look of the glass, the versatility of MDF

MIRROR is created using a highly reflective polyester foil applied to an 18.5 mm MDF board, finished with a transparent PET protective coating that delivers a high-gloss appearance.

### Stylish Palette

Four Colors - Four distinctive expressions. More than a reflection, a new way to design.

### Durability

Unbreakable in everyday use. Exceptional resistance meets timeless design.

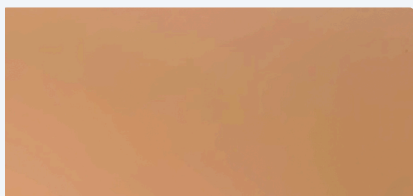

### Versatility

Adapts effortlessly to a wide range of creative applications.

## DECOR COLLECTION

**Rosegold** - warm, sophisticated and effortlessly elegant. Adds a refined touch of luxury and pairs beautifully with natural wood and neutral tones.

# KEY APPLICATIONS & IDEAS

## Designed for more than a furniture

- **Residential Interiors:** Create sophisticated kitchen fronts, wardrobes, walk-in closets, sideboards, TV units, and decorative built-ins.
- **Hospitality & Commercial Spaces:** Bring elegance and lightness to hotels, restaurants, reception areas, retail interiors, and showrooms.
- **Exhibitions & Displays:** From product showcases to trade fair stands, MIRROR offers freedom to create distinctive forms.
- **Feature Walls & Accent Panels:** Use as an architectural accent on wall panels, decorative inserts, or bespoke installations.

## Why choose MIRROR?

- **Striking Mirror Effect:** Premium high-gloss reflective finish.
- **Light & Shatter-Resistant:** Safer alternative to traditional glass mirrors.
- **Standard Processing:** Easy to cut, drill, and shape like a standard furniture board.
- **High Durability:** Superior resistance to scratches, impacts, and chemicals.
- **No Curing Required:** Ready for immediate use after film removal.
- **Long-Lasting Gloss:** Color and reflective surface do not fade over time.
