ACRYLUX
GLOSS

TECHNICAL DATA

Dimensions: 2800 × 1300 mm

Thickness: 18 mm (PP)

Base: MDF

On request: thickness 6–48 mm

Directional Surface: marking on the foil ↑ ↓

Niemann's glossy furniture boards are covered with an acrylic coating 0.7-0.8 mm thick. An additional advantage is the lack of need to use special treatments, that harden and protect the surface, after removing the protective foil. The boards are manufactured on the basis of MDF boards. The back is finished with white PP counter-pressure laminate. It is also possible to finish with laminate on both sides.

USEFUL INFORMATION

- Over 20 decors with perfect color depth
- Elegant appearance
- Gloss optically increases the space of the room
- Enhances the feeling of cleanliness

TECHNICAL INFORMATION

The main advantages of the boards are:

- High resistance to scratches, chemical damage and UV radiation
- Perfect color depth
- Unusual gloss and mirror reflection effect
