

KRISTALL

GLOSS/MAT

An exclusive line of MDF-based furniture boards covered with a glossy (Kristall Gloss) or matt (Kristall Satina) 2 mm thick acrylic laminate giving the depth of glass. Due to the fact that it is shatterproof, it ensures ease of processing and safety. The back of the board is finished with a pearl HIPS laminate 2 mm thick in the color of the front or according to the color legend. The Kristall collection is aimed at the most demanding group of customers who are looking for innovative and unconventional solutions in the field of furniture.

USEFUL INFORMATION

Kristall is a new quality in the field of high-gloss boards. The unique material provides depth of glass and also ensures ease of processing and safety (it is unbreakable). In comparison to glass fronts, Kristall boards are much lighter, safer, and can be processed like a furniture board.
